Pro Keratin

Smooth & Strengthen

Keratin Pro is professionally formulated with Keratin to boost natural Keratin levels, which helps to reduce frizz and tame fly aways.

Hair is left feeling effortlessly silky smooth and more manageable.

Gentle enough for everyday use for beautifully glossy hair.

“Natural keratin cells provide hair with strength and structure. Styling, colouring, ageing, UV and urban pollution all contribute to breaking down natural keratin, leaving hair damaged, dull and frizzy.

Keratin protein treatment bonds to each strand of hair, providing a coating against excessive heat and pollution, and subsequently protecting and repairing damaged and stressed hair cells.

Hair strength is rebuilt and elasticity restored, leaving hair softer and more manageable.

The rough, damaged texture of hair is restructured resulting in tired, dull hair regaining health, shine and vibrancy.”

— MADE IN ENGLAND —

A vibrant advertisement for pink grapefruit. The background is a dynamic splash of water with several slices of pink grapefruit. The slices are cut to show the juicy, red-pink segments and the white pith. The water splashes are captured in mid-air, creating a sense of freshness and movement. In the center, a white rectangular box with a thin orange border contains the text 'PINK GRAPEFRUIT'.

“A modern plant and high technology have replaced most of the early manufacturing processes, but the traditional sense of pride and quality continues to play an important part of Potter and Moore’s philosophy. Our modern factory in the Cambridgeshire village of Werrington, near Peterborough, utilises advanced computerisation and the most sophisticated of production equipment.

But the greatest strength of the Company is that we never forget we are pursuing a traditional craft. The very latest technology goes hand in hand with the old standards of immaculate quality.”
