PROBLEM	SOLUTION
Dulling	Enhances colour and shine; conditioners and sunscreens help combat environmental and chemical damage to the colour of brunette hair.
Dryness	Gently cleanses without stripping colour. Dulling deposits and styling residues are washed away, while gentle moisturisers restore a healthy sheen.
Colour Change	Pro-vitamin B5 helps replace lost moisture and strengthens hair leaving it feel soft, smooth, and protected against future styling and environmental damage.
Manageability	Improve elasticity and resilience, while effectively smoothing and conditioning dried out brunette hair.
